Richmond Boakye

Founder & Software Developer, RHB Digital | Web Apps, APIs & Shopify for businesses | Microsoft Certified: Azure Developer Associate (AZ-204) | IT Representative at IES Östersund
Östersund, Jämtland County, Sweden

Summary

I build software that small businesses actually run on. Recent work includes a complete Shopify store with online booking & Postnord integration for Beauty By Lin, and a cloud-based .NET 9 system on Microsoft Azure backed by 65+ automated tests. Through RHB Digital, I help businesses, entrepreneurs and organisations in Sweden turn ideas and manual processes into:→ Custom software and web applications→ Business websites and Shopify e-commerce→ API integrations and business automation→ Azure cloud solutions Microsoft Certified: Azure Developer Associate (AZ-204)--> C#, .NET, ASP.NET Core, EF Core, SQL/PostgreSQL, Azure, Docker, TypeScript, Angular, Shopify/Liquid I also work as IT Representative at Internationella Engelska Skolan (IES) Östersund, supporting staff and students with devices, accounts and digital platforms. That work keeps me close to how people use technology day to day. I'm completing a BSc in Informatics (Systems Development) at Mid Sweden University and work in Swedish and English. Planning a website, webshop or software project? Visit rhbdigital.se or send me a message.

Experience

RHB Digital

Founder & Software Developer at RHB Digital

July 2026 - Present (4 months)

Östersund, Jämtland County, Sweden

RHB Digital is my software development and digital consulting business in Östersund, building websites, webshops, custom software and automations for small businesses.

Selected work:

- Beauty By Lin (beautybylin.se): designed and launched a complete Shopify store, including custom sections, product structure, payments, shipping, external booking integration, postnord integration and mobile optimisation.
- RHB Digital (rhbdigital.se): built and launched the company website in English and Swedish.

How I work:

- I handle every stage myself, from requirements and design through development, testing, deployment and handover.
- I build with security, accessibility, performance and long-term maintainability in mind, using Git-based delivery.

Stack: C#, .NET, ASP.NET Core, EF Core, SQL, Azure, TypeScript, Angular, Shopify/Liquid

Internationella Engelska Skolan
Information Technology Representative
January 2026 - Present (10 months)
Östersund, Jämtland County, Sweden

On-site IT for a school of around 500 students and 60 staff.

- Resolve device, account, access and application issues, keeping teaching running without disruption.
- Manage user accounts and onboarding, and support the school's website, communication and digital learning platforms.
- Handle user data and access with GDPR in mind.
- Collaborate with IT representatives across IES's network of 48 schools in Sweden.
